

## SAFETY DATA SHEET

### Section 1. Identification of the substance/mixture and of the company/undertaking

#### Product identifier

**Product Name:** BM-6000 Evacuation System Cleaner Concentrate

#### Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use(s):** To clean and deodorize suction lines

#### Details of the supplier of the safety data sheet

<b>Manufacturer:</b>	N.A.K.P Foto Inc. 2575 De Miniac Ville Saint Laurent, Quebec H4S 1E5 Canada	<b>Distributor:</b>	B.M. Group Inc. 5890 Monkland Avenue, Suite 16 Montreal Quebec H4A 1G2 Canada

#### Emergency telephone number

**Emergency contact:** 1-800-463-5060 Poison Control Center in Quebec, Canada

#### Notes:

While this cleaning product is generally safe and effective during normal use as per directions on label and as per guidelines in this SDS, this SDS also contains valuable information critical to the safe handling and proper use of the product for large production plants, industrial workplace conditions as well as unusual and unintended exposures such as large spills. This SDS should be retained and available for employees and other users of this product.

### Section 2. Hazards identification

#### Classification of the substance or mixture

##### GHS Classification for mixture:

Serious eye irritation - Category 2  
Skin irritation - Category 2

#### Label elements

##### Pictograms:

##### Signal Words:

Warning

##### Hazard Statements:

Causes skin irritation.  
Causes serious eye irritation.

##### Precautionary Statements:

**Prevention**

Wash hands thoroughly after handling.

Wear protective gloves, protective clothing, eye protection, face protection.

**Response**

If eye irritation persists: Get medical attention / advice.

If skin irritation occurs: Get medical attention / advice.

If eye irritation persists: Get medical advice/attention.

IF IN EYES: Remove contact lenses, if present and easy to do. Continue rinsing.

IF IN EYES: Rinse cautiously with water for several minutes.

IF ON SKIN: Wash with plenty of water and plenty of soap .

Take off contaminated clothing. And wash it before reuse.

## Section 3. Composition/information on ingredients

**Substances**

No available data for this section.

**Mixtures**

Identifiers	Ingredients	Percentage	Classification
67-63-0	Isopropyl alcohol	4%	
7664-38-2	Phosphoric Acid	1.4%	
79-14-1	Glycolic acid	0.5%	

## Section 4. First-Aid Measures

**Description of First Aid Measures****In the event of splashes or contact with eyes**

Immediately flush with clean, low-pressure water for several minutes. Hold eyelids open to ensure adequate flushing. Remove the contact lenses if worn and easy to do that. Immediately seek medical attention.

**In the event of splashes or contact with skin**

Immediately remove all contaminated clothing. Wash contaminated areas thoroughly with water. If redness or other symptoms occur, seek medical attention.

**In the event of ingestion**

DO NOT INDUCE VOMITING. If swallowed, call a physician immediately. Only induce vomiting at the instructions of a physician. Never give anything by mouth to an unconscious person. Immediately seek medical attention. If spontaneous vomiting occurs, lean the exposed person forward to reduce the risk of aspiration. Small amounts of material which enter the mouth should be rinsed out until the taste is dissipated. If the exposed person is conscious, give lots of water to drink. Monitor for breathing difficulties. In case of ingestion of large quantities immediately take the exposed person to hospital.

**In the event of inhalation**

Remove person to fresh air and keep at rest in a position comfortable for breathing. Loosen tight clothing such as a collar, tie, belt, or waistband. If the exposed person is not breathing, provide artificial respiration. If necessary, provide additional oxygen once breathing is restored if trained to do so. Seek medical attention immediately. **WARNING:** It may be hazardous to the person providing aid to give mouth-to-mouth resuscitation when the inhaled material is toxic, infectious, or corrosive.

**Most important symptoms and effects, both acute and delayed**

No available data for this section.

**Indication of any immediate medical attention and special treatment needed**

No available data for this section.

## Section 5. Firefighting Measures

### Extinguishing media

#### Suitable Extinguishing Media

The suggested appropriate media: Alcohol-type or universal-type foams. Carbon dioxide. Dry chemical.  
The product is not flammable or combustible.

#### Unsuitable Extinguishing Media

No available data for this section.

### Special hazards arising from the substance or mixture

#### Specific Hazards Arising from Combustion of Products

Fire / decomposition hazards: Corrosive gases. Toxic gases.

#### Combustion Products

Phosphorous oxide.

### Advice for firefighters

#### Protective Measures for Fire-Fighting

Wear self-contained breathing apparatus.

#### Special Protective Actions for Fire-Fighters

No available data for this section.

#### Other Information for Fire Fighters

No available data for this section.

## Section 6. Accidental Release Measures

### Personal precautions, protective equipment and emergency procedures

For large spills inside: Evacuate the room of anyone not wearing approved protective equipment.

For minor spills: Wear protective gloves, clothing, and protective goggles to prevent contact with skin and eyes.

### Environmental precautions

Do not discharge into drains or any body of water (rivers, streams, ponds, lakes, etc). If the product has entered a water course or sewer or contaminated soil or vegetation, advise the local emergency services and environmental authorities.

### Methods and material for containment and cleaning up

**Large spills:** Ventilate spill area. Absorb with earth, sand, or other non-combustible material. If possible, the spilled liquid should be transferred to a waste container. Residual liquid should be absorbed and placed in separate container. Dispose of the material in accordance with government regulations.

**Small spill:** Dilute with water and absorb into dry earth or sand. Transfer to a closable, labeled salvage container for disposal by an appropriate method.

### Reference to other sections

No available data for this section.

## Section 7. Handling and Storage

### Precautions for safe handling

Avoid direct contact with the substance (solid / liquid / vapor). Avoid breathing gas / mist / dust / fume / vapor / spray / particles. Check container for defect or leakage before handling. Keep container tightly closed. Wash Hands thoroughly after handling. Report immediately if physical damage, leakage, or spillage occurs. Protect against physical damage. Eye wash stations and showers are recommended in areas where product is stored in large quantities. For small volume use, ensure there is a sink nearby which employees can use to flush their eyes and skin appropriately in the event of accidental exposure.

## Conditions for safe storage, including any incompatibilities

### Conditions for Safe Storage

**Keep away from:** Direct sunlight.

Store only in well-ventilated areas. Keep container closed when not in use.

### Suitable Packaging

Store in original container / packaging.

### Incompatible Materials

Oxidizing materials. Basic Materials.

### Specific end use(s)

No available data for this section.

## Section 8. Exposure Controls / Personal Protection

## Exposure controls

### Engineering Measures

Eye wash stations and showers are recommended in areas where product is stored in large quantities. For small volume use, ensure there is a sink nearby which employees can use to flush their eyes and skin appropriately in the event of accidental exposure. Provide adequate general and local exhaust ventilation.

### Respiratory Protection

Respiratory protection is required if the concentrations exceed the TLV. Certified self-contained breathing apparatus must be available in case of emergency.

### Eye/Face Protection

Wear safety goggles. In industrial plants or large production areas, ensure eye-wash stations are available. For use in small settings or offices, a procedure and training for washing eyes in a sink is recommended.

### Skin and Body Protection

Wear appropriate chemical resistant clothing.

### Hand Protection

Ensure gloves are certified. Wear impermeable gloves.

### Hygiene Measures

No available data for this section.

## Environmental exposure controls

No available data for this section.

No available data for this section.

## Section 10. Chemical Stability & Reactivity Information

### Reactivity

No available data for this section.

### Chemical Stability

This product is stable under ambient condition.

### Possibility of Hazardous Reactions

The product decomposes in high temperatures and produces toxic gas or vapor.

### Conditions to Avoid

**Keep away from:** Direct sunlight. Fire. Heat.

### Incompatible Materials

**Avoid contact or storage with:** Alkalis. Strong bases. Alkali earth metals.

### Hazardous Decomposition Products

**Decomposition will Result in Production of:** Corrosive gases. Toxic gases. Phosphorous oxide.

## Section 13. Disposal Considerations

### Waste treatment methods

#### Waste Disposal Regulation(s) / Operation

Transfer to a suitable container and arrange for collection by specialized disposal company. May be discharged to wastewater treatment installation. Avoid release to soil. Users need to pay attention to the possible existence of regional or national regulations regarding disposal. Disposal, treatment, or recycling of industrial waste must comply with applicable regulations to preserve the environment.
